## THROUGH GROUND PHONO PLUG. 345 series

A range of high quality UK manufactured phono plugs made from machined brass with various plating options. The contact can be removed from the main body when crimping preference is preferred on assembling cable to contact.

- Centre contact available in solid pin with crimp or solder bucket.
- Ground contact with precision machined patented 'T' shape slot for maximum contact area.
- Collet for cable gripping and dual grounding.
- Attractive body styling.
- Maximum cable size  $\phi$ 6mm.

### MATERIAL:

- Centre contact :- Brass, 0.5 micron gold plated
- Ground contact :- Brass, 0.5 micron gold plated
- Insulation :- PTFE
- Collet :- Brass, Flash Gold plated
- Phono Cap :- Brass, 0.5 micron gold plated

- Ratings—5A at 200 Vdc/150 Vac max
- Insulation resistance—100M $\Omega$  at 500 Vdc
