MCE3064SS
MCF3064SS
Magneto-Optical Drives

The MCE3064SS and MCF3064SS magneto-optical drives deliver capacity, speed and reliability to meet the requirements of most of today's demanding applications.

- Ultra SCSI interface
- 23ms seek time and data transfer rates up to 4.9 MB/sec
- Up to 50% faster write performance with Over-Write (OW) media
- Ultra quiet design – only 23dBA
- Unlimited rewrite capability on MO disks
- 640MB, 540MB, 230MB or 128MB rewritable disk options

Fujitsu Computer Products of America (FCPA) takes magneto-optical (MO) technology to new levels with the fourth-generation of SCSI MO drives. These state-of-the-art, high-performance drives store up to 640MB on industry standard MO disks, are faster and quieter than their predecessors, and offer the high level of ruggedness and reliability you've come to expect from FCPA's MO products.

High-Performance Storage

The MCF3064SS is a 3600 rpm drive that provides data transfer rates up to 3.9 megabytes per second. The MCE3064SS offers even higher performance at 4500 rpm and up to 4.9 MB/sec. Using Over-Write MO disks can further increase write performance up to 50%. Magneto-optical is ideal for backup, archiving, data acquisition, medium scale software distribution, anything that requires high capacity, reliable, removable storage.

Protecting Investments in Data

Fujitsu MO disks are extremely rugged and highly tolerant of the problems that plague magnetic media. Shock, vibration, moisture, dust and magnetic fields won't destroy data stored on a MO disk. Each disk comes with a lifetime warranty and because of their ruggedness, they make the perfect medium for office, home or industry.

Multiple Media Options

The MCE3064SS and MCF3064SS can read and write to all ISO compliant, 3.5-inch MO media capacities: 640MB, 540MB, 230MB and 128MB, as well as Over-Write disks. No other storage solution offers as many options to tailor the media selection to the application while providing such a high level of investment protection.

About Fujitsu Computer Products of America

Fujitsu Computer Products of America is a wholly owned subsidiary of Fujitsu Limited, one of the world's largest computer companies with $43.3 billion in worldwide revenue in fiscal year 1998. Benefiting from Fujitsu Limited's $3 billion annual investment in research and development, Fujitsu Computer Products provides innovative solutions for the U.S. marketplace. Current product offerings include high-performance hard disk drives, tape drives, magneto-optical drives, high-volume scanners, and printers.

MCE3064SS and MCF3064SS Specifications
