For low noise applications, the following graphs show a comparison of 900 MHz and 2GHz noise figure for 2nd, 3rd and 4th generation types in surface mount SOT-23 and SOT-143 packages:

Recommended for low noise applications are 4th generation types. The following graph shows typical noise figure for various 4th generation types in surface mount SOT-23 and SOT-143 packages:

The following graph shows typical power gain for 2nd, 3rd and 4th generation types in surface mount SOT-143 packages:
