INDUCTORS: STANDARD AND CUSTOM

CUSTOM INDUCTORS

Custom designed chokes to meet your exact specifications are available using proprie programs. With in-house capabilities for both core-making and core-cutting, we can off around for both prototypes and production volume orders. While it is often believed the higher prices, that is not necessarily so, even with small quantities. Contact us with you specifications and we will be happy to give you a free price quote. You may be pleasar

Custom Design Form

STANDARD INDUCTOR

Many of the same features offered by our toroidal transformers are also true for our tor DC filtering and AC circuits. A toroidal DC filter choke for line frequency operation used with a toroidal power transformer allows our engineering to design a smaller size trans toroidal DC filter chokes also reduces the size of the required filter capacitors. Amvecc standard design chokes from 0.2Ws to 25Ws.
